problem The Truth Crisis

In an era where AI can generate and manipulate content in many forms, editing tools allow the same ease for ~~imagery~~ people
imagery "AI can generate & manipulate digital content in seconds.
"whats real to ensure we are responsibly informed"

Solution
create 5th placard for Solanas piece of puzzle
51% - remove longhyphens
70% -

Immutable Wflow
1 ~~upload~~ capture
4 - signify/verify
how
PDT: How does Solana fit in?

Shape The
"decentral verification for high stakes media"
placards need the periods removed

Survey
Data policy window consent — this should provide option for Web2 or 3 auth
"to ~~train~~ inform the Truth Engine"
The consent checkbox should ~~wait for~~ not serve as the "submit & continue" button below it.

- Journalism
2 "...verify ~~submitted~~ imagery or source materials, citizen-submitted or otherwise
3 "... image affected your workflow
current "almost made it to print/air
Ifyou could (prove) ~~confidently~~ & ~~verifiable~~ and/or depend upon the "Source of Truth" instantly for any ~~(image)~~ media
↳ follow up: IS this an option currently?

- ~~Legal~~ VFX
6 in a ~~protocol~~

- Construct
2 "... a planned/asis ~~visual~~ dispute
3 Follow up: with what level of ~~spatial~~ accuracy?
4 "... be of real-time positioning & install verifications
